item code: 021139 - ean code: 8009518211399

## FRAGRANCES

### ENERGISING PERFUME

Bioetic Uomo is thrilled to announce its first Revitalising Eau De Toilette. The intensely aromatic, inebriating formula washes a wave of vitality and energy over both the body and the mind. The main theme of the crisp fragrance is Orange flower and Lavender, veering towards woody amber notes and softened by delicate Moss and Ambergis scents.

#### IT WORKS BECAUSE

Enriched with VITACELL®, an active ingredient chosen for its ability to release the energy potential of stressed, mature skin; the substance “recharges the battery” of tired skin cells. The formula actually brings ATP (cellular energy) levels back to those of young skin. ATP is a molecule that cells employ as an energy source for building and regenerating their vital constituents. As we age, ATP levels tend to wane. VITACELL® is crucial for capturing and eliminating toxins, intensifying inter-cell communications, and neutralising environmental aggressors. For energised, revitalised skin. Clinically tested.

100ml glass spray bottle  
item code: 001920 – ean code: 8009518128406

### REVITALIZING AFTERSHAVE LOTION

The ideal way to finish shaving. A bracing energy boost with a regenerating effect on skin.

The pleasantly fresh fragrance develops woody, amber notes. The handy dropper bottle dispenser allows users to neatly dispense just the right amount of liquid every time.

Press into dry skin with the fingertips, avoiding the area around the eyes.

#### IT WORKS BECAUSE

The two-in-one formula moisturises skin: Natural Extract AP®, also known as the “moisture magnet”, helps to replenish skin’s moisture stores. Skin instantly feels more supple and better able to withstand environmental aggressors. This is the special ingredient that gives skin hydration a visible boost:

it has an amazing ability to capture, channel and release moisture when and where it is needed the most. It also enhances the suppleness of skin and provides outstanding protection.

Soothing: Other ingredients include Aloe Vera – a plant well known for its ability to soothe reddened skin. This extract is a boon for dry, flaky skin; it has a softening effect, reduces redness, and produces immediate, lasting relief. Menthyl lactate is also included to impart prolonged, regenerating freshness.

Clinically tested.
